# Immobilization Splinting

## Course Description:

The focus of this course will be the splint fabrication process. A dynamic format utilizing lecture, case studies, demonstration and hands-on lab activities will address the basic skills for immobilization splinting. This interactive course is intended for the practicing PT, PTA, OT, COTA with beginner to intermediate splinting skills. Participants will gain insight to appropriate splinting products on the market as well as acquire 'Clinical Pearls' from the experienced instructor. Various splinting materials will be utilized including a wide range of thermoplastics and strapping. 7 contact hours, 0.7 CEUs

## Course Schedule

### Friday:

8:00 – 8:30	Registration
8:30 – 10:00	Lecture: Immobilization Splinting

July 18-19  
Walnut Creek, California

### Immobilization/Mobilization Splinting

August 8-9  
Elmhurst, Illinois

# Course Instructor

**Noelle M. Austin MS, PT, CHT** is a graduate of Quinnipiac University who obtained her Master's degree at the University of Connecticut with a special focus on Allied Health Education. She has been teaching the art and science of splinting for over 13 years. In addition to conducting both national and private workshops on splinting and hand rehabilitation, Noelle has been involved in product development and training of sales representatives for Sammons Preston Rolyan. For the past two years she has presented a pre-conference at the Annual ASHT meetings on the topic of splinting. She owns CJ Education and Consulting, LLC which is dedicated to providing quality clinical education for therapists around the country. Currently a hand therapist at ProPT in Hamden, CT, she is also an active member of the American Society of Hand Therapists. Noelle is co-author and co-editor of the book *Splinting the Hand and Upper Extremity: Principles and Process* published by Lippincott Williams and Wilkins, 2003. She co-authored the Jul-Sep 2004 article published in *The Journal of Hand Therapy*, "A comparison of high-profile and low-profile dynamic mobilization splint designs". In addition, she wrote the chapter "Wrist and Hand Complex" in the 4th edition of *Joint Structure and Function* (Levangie and Norkin) published by FA Davis in 2005. She also co-authored "Orthotics in the Management of Hand Dysfunction" in the 2nd edition of *Orthotics and Prosthetics in Rehabilitation* (Lusardi and Nielsen) published by Elsevier 2007.
