

## **Immobilization/Mobilization Splinting**

### **Course Description:**

The focus of this course will be the splint fabrication process. A dynamic format utilizing lecture, case studies, demonstration and hands-on lab activities will address the skill of splinting. This interactive course is intended for the practicing PT, PTA, OT, COTA with *beginner* to *intermediate* skill level. Participants will gain insight to appropriate splinting products on the market as well as acquire 'Clinical Pearls' from the experienced instructor. Various splinting materials will be utilized including a wide range of thermoplastics and strapping. (Please note that due to time constraints, all splints may not be fabricated by each participant.)

**PLEASE NOTE: Participants may attend one or both days.**
